Vote SV for a better tomorrow!

One of the greatest things about Norway is the low level of economic inequality between people. But in recent years, something has changed. Inequality has grown. Never before have there been as many billionaires in Norway as today. At the same time, life has become much harder for most people.

Everything has become more expensive. It's simply harder than before to live an ordinary life based on an ordinary income.

The most effective tool we have to reduce social inequality is the welfare state. But it is under pressure. We must not only protect it – we must strengthen and expand it. SV will ensure high-quality services in schools, kindergartens, and hospitals for everyone, with enough staff to do get the job done. We want to increase child benefits, make sure every child can attend kindergarten, and guarantee free dental care for all.

Norway's natural environment is being destroyed on a large scale. At the same time, we are facing a global climate crisis. Norway must take the lead and do its part. We must stop opening new oil fields and take action now to protect jobs, biodiversity, and people's access to nature.

SV stands with those affected by war and injustice. We work to increase international aid, to support people fleeing conflict, and we condemn all attacks on democracy – like those we've seen under Donald Trump in the US. We will never give up the fight for a free Palestine, and we stand with Ukrainians in their struggle for freedom.

Do you agree? Vote SV by September 8th!
